# UNIQUE TOWING TECHNOLOGY –

## from the innovation leader offered by TowSmart Custom

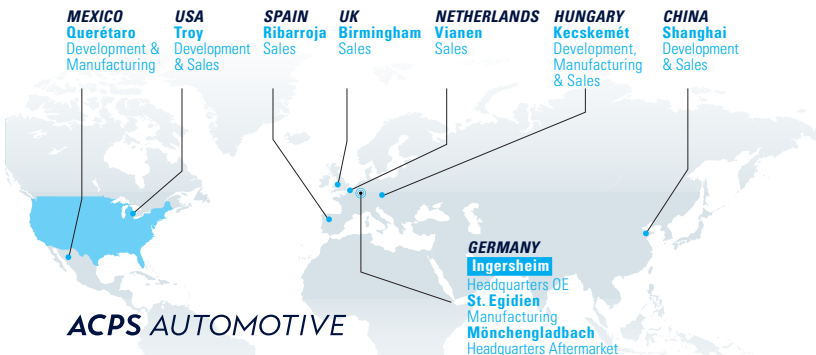

HOOKED ON® INNOVATION

HOOKED ON® INNOVATION

## EUROPEAN MARKET LEADER AND GLOBAL PLAYER

ACPS Automotive is the market leader for the engineering and manufacture of **TRAILER HITCHES FOR PASSENGER CARS, SUVs AND VANS IN EUROPE.**

### ACPS AUTOMOTIVE

With more than 65 years of experience and with over 2,200 employees and 3 factories, ACPS Automotive is today the technology leader in trailer hitches for cars, SUVs and vans. ACPS Automotive develops, manufactures and sells its innovative and safe hitches and carrier systems at ten locations in Europe, the USA, Mexico and China. All leading car manufacturers trust in the innovative trailer hitch solutions under the brand ORIS. The company transfers its expertise from original equipment to its innovative and safe solutions to the independent spare parts trade and independent workshops (aftermarket).

**To best meet the needs of the North American market, ACPS Automotive enters into a partnership with the American TowSmart Custom.** TowSmart Custom, the expert around the hauling needs, takes over the distribution of the innovative ORIS towbars from ACPS Automotive in the USA.

**ACPS Automotive is the company, ORIS is the premium brand**

The unique, patented trailer hitches are provided under the ORIS brand for the international automotive industry with original equipment and the aftermarket with retrofit capabilities. Branded TowSmart Custom for the North American market.

ACPS Automotive is the innovation leader in trailer hitches for cars, SUVs and vans, holding more than 140 patents worldwide.

# 140 PATENTS worldwide

## TECHNOLOGY LEADER

FORWARD-THINKING,  
FUTURE-ORIENTED, INNOVATIVE

**INVENTOR OF THE WORLD'S FIRST DISAPPEARING TRAILER HITCH™**

Innovative ideas, consistent further development of products and the ability to create genuine novelties have significantly shaped technological progress in the field of trailer hitches. Especially disappearing hitches™ which ACPS Automotive introduced to the market as a world first offer global Original Equipment Manufacturers access to its German-engineered trailer hitch solutions which are purpose-built for today's lighter and more energy-efficient fleet.

### Swivelling solutions: compact, fast, ergonomic

The invention and implementation of swivelling solutions around only one inclined axis was ground-breaking and still forms the basis for all ACPS Automotive swivel systems today. The swivel curve and volume are optimally aligned with the vehicle environment, so that the system is much more robust and requires a minimum of space.

## SLEEK DESIGN AND MAXIMUM PERFORMANCE

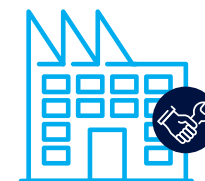

ON SAFETY, LIFETIME AND DURABILITY

**Disappearing trailer hitches™:**  
Available when needed,  
invisible when not!

# 65+ YEARS in business

**Over its sixty-five years in business, ACPS Automotive has significantly influenced technological progress in towbar design.**

Using the innovations of German engineering our company has reinvented the trailer hitch. Trailer hitches that move, adjust and add unprecedented safety and durability. ACPS Automotive stands for sleek design and cutting-edge technology in the field of trailer hitches.

**HOOKED ON INNOVATION**
